GOOD PERFORMANCE CERTIFICATE

Trolleybusni i avtobusni prevozi EOOD Stara Zagora issues the present Good Performance Certificate to verify that within the period 2014 - 2015 the Joint Venture DZZD EL KONTROL-2014 implemented Contract No. BG161PO001/1.5-03/2011/003 – S-04 No. 04 dated 17.06.2014 for **‘Elaboration of detailed design for repair and rehabilitation of rectifier stations (RS). Rehabilitation of RS in Stara Zagora.’** under the Project for **‘Modernization and development of sustainable public transport in the town of Stara Zagora’, Contract BG161PO001/1.5-03/2011/003, Grant No. BG161PO001/1.5-03/2011 ‘Support for integrated public transport in the five biggest towns’ of the Operative program ‘Regional development 2007 – 2013’.**

Value of the activities implemented by DZZD EL KONTROL-2014 amounts at **1 270 630.80 leva**. Value of the activities implemented by EL KONTROL EOOD Company amounts at **1 126 174.65 leva**.

Scope of implemented activities is as following:

I. Design Stage

Elaboration of a two-parted detailed design, including:

1. Rehabilitation of RS-1, RS-2, and RS-5:

- Electrical reorganization of 20 kV MV distribution device;
- Electric installation, power supply installation, and lighting installation;
- Heating and ventilation system;
- Technology of project implementation;
- Health and safety plan;
- Fire protection.

2. Rehabilitation of RS-4:

- Electrical reorganization of 20 kV MV distribution device;
- Electric installation, power supply installation, and lighting installation;
- Heating and ventilation system;
- Construction part: roof;
- Water supply and sewerage installation;
- Technology of project implementation;
- Health and safety plan;
- Fire protection.

II. Construction stage

Includes gradual implementation of construction and electrical works projected in the detailed design.

1. Rehabilitation of RS-1, RS-2, and RS-5:

- Substitution of 20 kV switchgear of type 8DJH – dismantle and installation works, delivery of power and control cables and steel structures;
- Restore of sound-and-visual signalization system of the auxiliary power supply switchboard;
- Diagnosing and restore of defective elements or missing ones (control plates, diodes, time-relays, etc.) of rectifying modules and DC distribution switchgear;

- Restore of the spare sectional automatic device on barrow;
- Restore of missing knife disconnectors;
- Restore of relay protection, full test-run, measuring and control;
- Restore of illumination in Machine room as set out in the design;
- Air-conditioning of premises for personnel on-duty;
- Construction of new Lightning-protection installation;
- Repair and equipment of sanitary premises.

2. Rehabilitation of RS-4:

- Restore of Rectifier-1 and Rectifier-2;
- Diagnosing and restore of defective elements or missing ones (control plates, diodes, time-relays, etc.) of rectifying modules and DC distribution switchgear;
- Diagnosing and restore of relay protection; full test-run of primary and secondary equipment at existing 20 kV distribution switchgear; measuring and control; delivery of personal protective means;
- Construction of new sloped roof and tin plating of the roof board;
- Connection of the water supply and sewerage installation of RS-4 building to the urban network;
- Air-conditioning of premises for personnel on-duty;
- Construction of new Lightning-protection installation;
- Construction of ventilation in Indoor Switchgear premises;
- Repair and equipment of sanitary premises.

3. Construction of reactive power compensation system at RS-4, including:

- Research and design works;
- Delivery of compensatory chokes, control panel, power and control cables;
- Installation of the equipment, commissioning and putting the system into operational use.

Assigned works were properly implemented in compliance with the Technical specifications of the Assignor, the legal regulations, and the agreed time-schedules. Installed facilities are put under operation, and work at normal operation mode.

Company proved to have the machinery, special purpose vehicles and equipment, as well as highly-qualified engineering, managing and erection staff required for implementation of the tasks undertaken.

Based on the above, Trolleybusni i avtobusni prevozi EOOD expresses content from collaboration with EL KONTROL EOOD and issues the present Certificate to verify that the Company is trustworthy and reliable partner.

The present Certificate has been issued to be submitted by EL KONTROL EOOD in tenders and procurement procedures, and in any case of need to prove company's abilities.

Manager of Trolleybusni i avtobusni prevozi EOOD (*Signed – illegible*)
 Dimitar Avdzhiev
 (Round seal of Trolleybusni i avtobusni prevozi EOOD, Stara Zagora)
